**From the President, Marty Schuman:**

Spring has sprung and summer is not far behind. Many of us will be walking to the Bay to enjoy ourselves. I have had numerous calls concerning cars and trucks exceeding the speed limit. Exceeding the residential speed limit of 25 miles per hour is extremely dangerous and can cause damage to other vehicles and injury to pedestrians.

Hurricane season begins on the first of June. Now is the time to review your plans either to remain or evacuate. Dave Williams, our Emergency Preparedness Coordinator has written an excellent paper concerning Hurricane Evacuation. If you do not have a copy, let me know and we will send you one.

We are planning to update the CHS directory. If there are any changes to your entry, please notify your Block Captain who will pass the information on to me. The updated information will be printed in July.

Many residents are having boatlifts constructed on their bulkheads, which requires a permit from the City. Wally Dennison, our Water Ways Chairman will brief us at our next Civic League meeting on this topic. We have scheduled the next meeting on June 2<sup>nd</sup> at 7:30 p.m. at the Lynnhaven Congregational Church.

Looking forward to seeing you at the meeting. If you wish to submit any agenda items, let me know prior to the meeting.

Welcome Denise Stephens as Block Captain G, and Jerry Anderson as Block Captain E.

Thanks to Mike Murray, we have a new flag at our entranceway.

Marty

Civic Association Meeting Scheduled for June:

Our next meeting is scheduled on June 2<sup>nd</sup>, 2009 at 7:30 p.m. at the Lynnhaven Colony Congregational Church's Community Center, located at 2212 West Great Neck Road.

We need your inputs. If you wish to bring up any topic that may improve our community, please contact our President at 481-7919 so that it may be placed on the agenda. We want to hear from you! Let's have a big turn out!

**CHS Waterways:**

It is easy for residents to assume that community waterways require no maintenance for our continued enjoyment. However, our community's street gutter storm drains feed directly into our waterways. As a consequence, leaf, twig, pine needle and other debris left to accumulate in our street gutters adjoining each property ultimately are "flushed" via rain runoff and wind into the storm drains and, thereby, into our waterways. The recurrent impact of such debris transport, if not routinely swept up from the gutters and disposed of by property owners, is ever diminishing waterway depths. Wally Dennison, our Waterways Committee Chairman, reminds us that though this is typically a year-round challenge, the late fall is an especially peak season for such debris generation and that property owners need to pay heed to making street gutter clean up a routine part of their yard maintenance program.

**CHS Website**

Carol Brighton maintains the official Cape Henry Shores Civic Association website. The site includes current announcements such as civic association meetings, news, etc., and can be accessed at [www.CapeHenryShores.org](http://www.CapeHenryShores.org). Any suggestions concerning website content should be forwarded to Carol (tel 496-9987 or e-mail at [cab5@cox.net](mailto:cab5@cox.net)).

A new web site/message board has been created for those interested in researching the history of Cape Henry Shores and its surrounding areas. It is a friendly, informal group for all ages which has archived messages, links, files, database, photos, and (non-public) members list. Topics focus on history but can include genealogy as well in researching the land area and its inhabitants prior to the neighborhood's development in 1965. The site is free but you must register with Yahoo Groups by creating a user name and password.

### CHS Motorist Driving and Parking Safety Reminder:

Motorists, please be mindful to carefully monitor your speed on CHS streets. There are apt to be school children walking to or from their bus, children playing, pets being walked by pet owners, bikers, runners, and "plain ole" pedestrians out seeking the fresh air. The legal **Speed Limit is 25 miles per hour**, and it doesn't hurt one to shade that conservatively a few digits less and stand better prepared for the **unexpected** such as children or pets suddenly darting out into the street. Our community has seen a numerical rise in small children in recent times, and coupled with any use of excessive motorist speed is a tragic accident waiting to happen.

And please help us with this related, very important safety reminder: please be mindful to park your own vehicles in your driveway, not on the street, in order to facilitate easier and safer access along our streets by virtue of maintaining unobstructed sighting of the roadway for both motorist and pedestrian.
